

January 2022

Happy New Year! We are grateful for your continued contributions to CRISP Image Exchange and we look forward to working with you in 2022!

IMPORTANT NEWS AND UPDATES

We are starting 2022 with 51 hospitals and 10 outpatient facilities as Image Exchange participants.

In 2021, Johns Hopkins Community Physicians (MD and DC) and United Medical Center (DC) became Image Exchange participants.

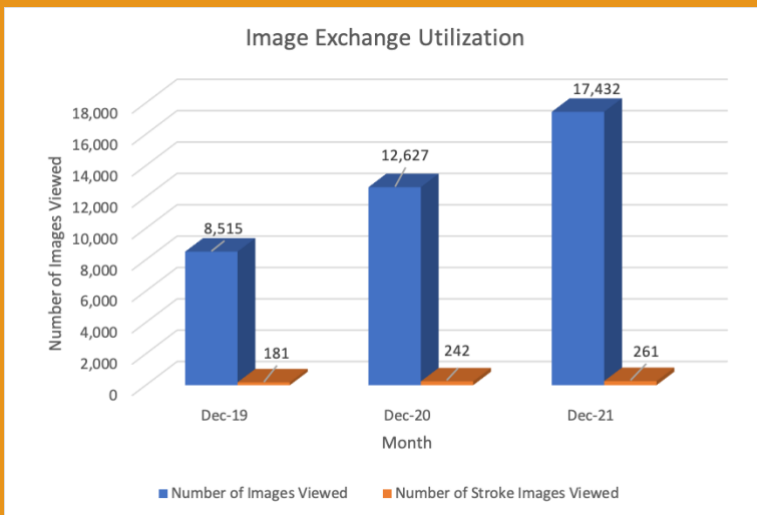

Image Exchange is on the rise!

This bar chart highlights the differences in image views for December of 2019, 2020, and 2021, respectively.

WHAT'S NEW

Recent Go Lives

- United Medical Center (DC)

Data Sources in Flight

- Mount Washington Pediatric Hospital (MD)
- Children's National Hospital (DC)
- University of Maryland Radiation Oncology Network (MD)

RIS Integration

CRISP now has the technical ability to support a RIS Integration that will allow Radiologists to access images via CRISP directly from their image system. We are looking for a pilot site! Please let us know if you are interested.

As a reminder, the Imaging Worklist is now available in the CRISP InContext App!

To access the Imaging Worklist from the InContext App, go the Radiology section of the Health Records, then click on the Imaging Worklist icon pictured below.

Emergent

If you work at a Primary Stroke center, consider using CRISP's Emergent service. Once a stroke-related image is captured, this service can automatically push the study to an archive that is available for immediate viewing by users at participating Comprehensive Stroke centers. If you are interested, please let us know.

If you are experiencing issues with Emergent (out urgent stroke service) after normal business hours (M-F, 8am-5pm) please call the CRISP Customer Care Team (CCT) at 1(877)-952-7477 for troubleshooting and escalation if required. If you have any other issues with the Unified Landing Page (ULP) and Image Exchange, please call CCT or open a ticket by emailing CRISP support at support@crisphealth.org.
