Re: Diabetes Management Scale Target Update

After reviewing Regional Partnership performance to date, HSCRC staff has decided to waive the diabetes management annual scale target for Calendar Year (CY) 2022. These changes will be reflected in your CRISP monitoring report in the coming weeks.

Given these changes, HSCRC and CRISP will spend the coming months conducting a comprehensive review of DSMT scale targets to determine whether adjusting numbers is appropriate for the duration of the program.

For additional questions, please email hsrc.grants@maryland.gov.

A decorative graphic at the bottom of the page consisting of a grid of light blue dots. The dots are arranged in a pattern that tapers to the right, creating a sense of movement or a rising curve.

* For referrals made before 7/20 that have not been uploaded to the CRISP e-Referral tool, please use 07/20/2022 as the referral date in the self-reported template.
