To Whom It May Concern:

The Chesapeake Regional Information System for our Patients (CRISP), confirms we are a Health Information Exchange (HIE) that is capable of exchanging information across a broad network of unaffiliated exchange partners, including those using disparate EHRs. We also confirm that we do not engage in exclusionary behavior when determining exchange partners. We support Eligible Clinicians (ECs) using CRISP to satisfy the Promoting Interoperability Health Information Exchange Bi-Directional Exchange Measure as defined here: <https://www.federalregister.gov/d/2020-26815/page-84889>.
