

CARE PARTNER ARRANGEMENTS

The Care Redesign Program (CRP) Entity will generate a standard Arrangement Agreement for each Care Partner enrolled in an EQIP Entity.

Care Partner Arrangements (CPAs) will include:

- Requirements for participation
- Standards established for the program
- Details of the EQIP Entity.

Each **individual Care Partner** must sign an Agreement to finalize their enrollment in EQIP. Care Partners who do not sign and return the Agreement by the specified deadline will be removed from the EQIP Entity.
