

EQIP AS AN AAPM

CMS QUALITY PAYMENT PROGRAM

The Quality Payment Program (QPP) was created in 2017 to reward Medicare practitioners who provide high-quality and patient-centered care.

QPP has two tracks:

- AAPM
- MIPS

EQIP AS AN AAPM

The Health Services Cost Review Commission (HSCRC) developed EQIP as an Advanced Alternative Payment Model (AAPM).

Practitioners in EQIP are on the AAPM track of the QPP.

QUALIFYING APM PARTICIPANTS

Practitioners in EQIP are considered Qualifying APM Participants (QPs).

For CY2025 & beyond, QPs will:

- Be exempt from MIPS reporting and MIPS payment adjustments.
- Receive an increased physician fee schedule update based on the QP conversion factor.
