

EQIP FOR GROWING PRACTICES

Some organizations, specifically new or growing practices, may not meet all the volume thresholds required to participate in EQIP. These organizations may:

- Consist of one or few practitioners;
- Have growing Medicare patient populations and/or;
- Consist of practitioners who started practicing after EQIP's baseline period.

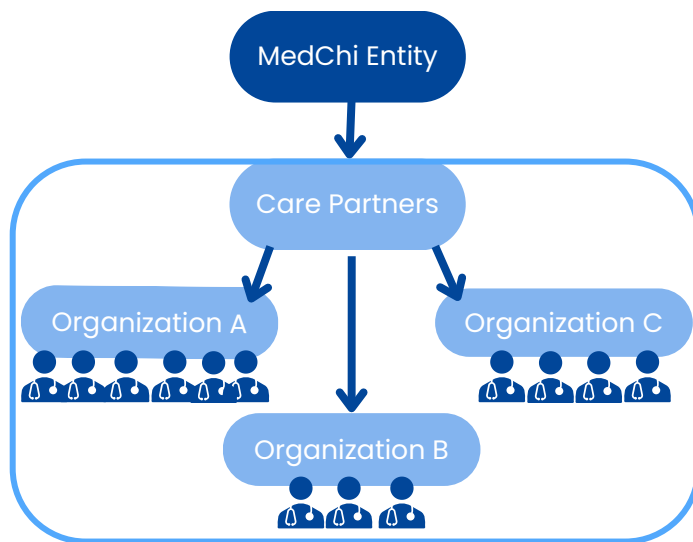

MEDCHI EQIP ENTITIES

A MedChi EQIP Entity is a collection of one or more practitioners, or Care Partners, who enroll and participate in EQIP together with the support of MedChi.

As a result, MedChi, The Maryland State Medical Society, created MedChi EQIP Entities to group new or growing organizations/practitioners together to give them an opportunity to participate in the program.

Performance Year 4 (CY2025) MedChi Entities:

- MedChi Allergy
- MedChi CTO
- MedChi Dermatology
- MedChi Gastroenterology
- MedChi Ophthalmology
- MedChi Ortho/Pain
- MedChi Rheumatology
- MedChi Urgent Care/Emergency Room

MedChi is happy to help support any practice who may want to join a MedChi Entity no matter the size of their organization or their affiliation!

Please reach out to equip@crisphealth.org to learn more about MedChi Entities.
