

CRISP Reporting Services Publication Dates – Calendar Year 2026

Below are the 2026 publication dates for CRISP Reporting Services (CRS). On these dates, the CRS team will refresh reports with updated data and may release new enhancements or reports. Please note, these dates are subject to change due to data delays or quality issues.

[Health Data Claim Sources](#)

[Table 1: Report Release Schedule](#)

[Table 2: Data Release Schedule](#)

Health Data Claim Sources:

- **Maryland All-Payer Hospital Case Mix Reports:** The Maryland Health Services Cost Review Commission (HSCRC) requires all acute care hospitals in Maryland submit confidential patient-level administrative data (referred to as “Case Mix data”) on all discharges and visits. The Case Mix data includes demographic (including medical record and provider identifiers), financial (payers and charges), and clinical (including dates of service, diagnoses, disposition) information for inpatient and outpatient discharges. These reports are updated continuously with preliminary data, but final HSCRC regulatory reports rely on finalized data for official purposes.
- **Medicare CCLF Data Reports:** The CCLF (Claim and Claim Line Feed) data files are a set of Medicare claims files incorporating all Medicare Part A and B claims from Inpatient Facility, Outpatient Facility, Skilled Nursing Facility, Home Health Agency, Hospice, Professional, Durable Medical Equipment, and Prescription Drug services. These files contain beneficiary claim level data including Medicare payment amounts, diagnoses, procedures, dates of service, provider identifiers, and beneficiary copayment amounts.
