

Three horizontal bars of increasing length and decreasing height, colored orange, orange, and green from top to bottom, with rounded right ends.

Clinical Reporting

CRISP User Summit
May 2026

● History of Reporting and Analytics at CRISP

Established in 2016, CRISP Reporting Services (CRS) displays claims data reports and dashboards for state agencies, hospitals, primary care and public health.

Claims data

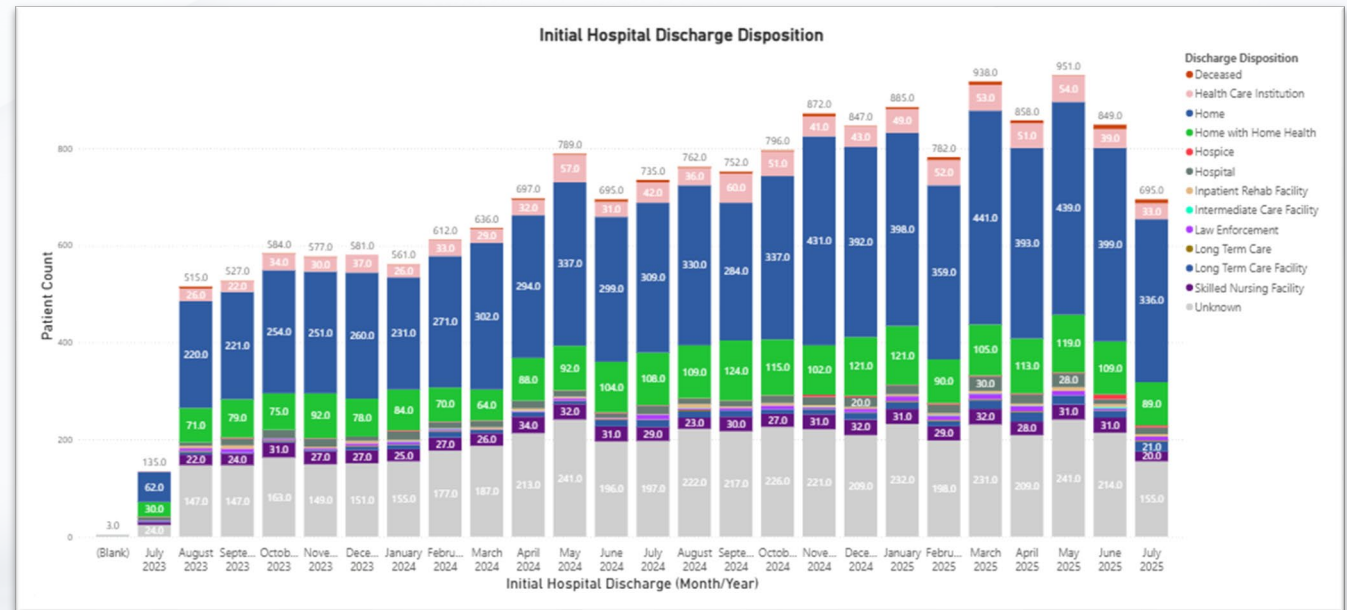

Standardized
Cost and quality
VBC programs
All setting
Delayed

Clinical data

All payer
Timely
Rich clinical info
Variability

Vision for Clinical Reporting

Use CRISP participant clinical data (ADTs, labs and more) for users to understand the health of their population through dynamic, on demand dashboards and analytics.

Patient discharge disposition by month, from Hospital Revisit Report.

● Clinical Reporting Progress 2025-Current

Stakeholder Input

- ✓ Incorporate pilot user requests and feedback
- ✓ Convene Clinical Reporting Affiliate Roundtable

Develop Reports

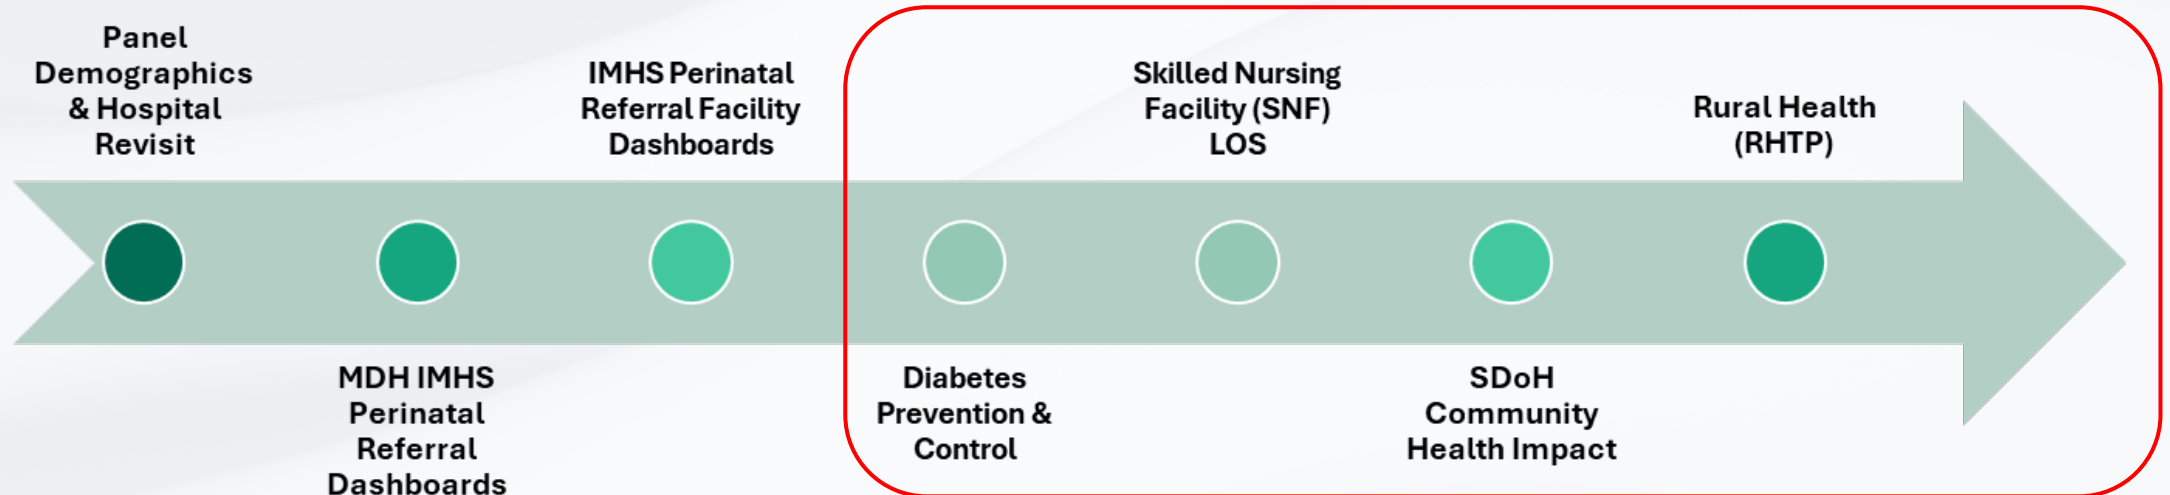

- ✓ Data standardization
- ✓ Develop new clinical reports

Increase Access

- ✓ Onboard first pilot orgs to clinical reports
- ✓ Leverage Role Manager App for scalable role-based access

Clinical Reporting Roadmap
